## Buch-Information

**Autoren:** Tomas Linkevičius  
**Titel:** Zero Bone Loss Concepts  
**Kurztext:**

Bone loss is still a major issue that dentists encounter, but it is a complication that can be prevented. By combining clinical experience with peer-reviewed scientific evidence, the author of this book has put together a guide that any implant specialist will find invaluable to prevent bone loss in their patients. Different strategies are presented that can be used to achieve zero bone loss years after treatment. Because successful treatment depends on both the surgical and prosthetic components, the book is divided into two parts, each focusing in depth on what must be done in each phase to promote bone stability. Case presentations detail many types of clinical situations, implant choices, and prosthetic solutions, all backed by evidence-based clinical studies that have proven success.

#### Contents

Section I. Surgical Concepts  
Chapter 01. Surgical Factors for Establishing Crestal Bone Stability  
Chapter 02. Implant Design Factors  
Chapter 03. Implant Placement Depth  
Chapter 04. Vertical Soft Tissue Thickness  
Chapter 05. Subcrestal Implant Placement  
Chapter 06. Flattening of the Alveolar Ridge  
Chapter 07. The Tent-Pole Technique  
Chapter 08. Vertical Soft Tissue Augmentation  
Chapter 09. Attached Tissues Around Dental Implants  
Chapter 10. Practical Recommendations for Implant Placement

Section II. Prosthetic Concepts  
Chapter 11. Prosthetic Factors for Maintaining Crestal Bone Stability  
Chapter 12. Considerations for Cement-Retained Restorations  
Chapter 13. Cement/Screw-Retained Restorations  
Chapter 14. Titanium Base Solutions for Fixed Partial Dentures  
Chapter 15. Abutment Alternatives  
Chapter 16. Influence of the Emergence Profile  
Chapter 17. Prosthetic Materials  
Chapter 18. Subgingival Materials  
Chapter 19. Avoiding "Zirconia Without Zirconia" Restorations  
Chapter 20. Supragingival Materials for Implant Reconstructions

**Fachgebiet(e):** Implantologie, Oralchirurgie
