Title: Surgical Procedures in Implant Dentistry
Subtitle: 7 Implant Surgeries by Daniel Buser

Short text:

This DVD presents the basic surgical procedures involved in the placement of implants in posterior and anterior sites. In addition to basic implant placement, procedures for simultaneous GBR use and for simultaneous sinus floor elevation via the lateral window and osteotome techniques are featured.

Contents

- Standard Implant Placement in a Single-Tooth Gap in the Mandible
- Standard Implant Placement in a Distal Extension Situation in the Mandible
- Standard Implant Placement with a Connective Tissue Graft in a Single-Tooth Gap in the Maxilla
- Implant Placement with Simultaneous GBR for an Apical Fenestration Defect
- Implant Placement with Simultaneous GBR for a Crestal Dehiscence Defect
- Implant Placement with Simultaneous Sinus Grafting via the Lateral Window Technique
- Implant Placement with Simultaneous Grafting via the Transalveolar Osteotome Technique
