Buch-Information

Hrsg.: Romano, Rafi
Titel: The Art of Detailing
Untertitel: The Philosophy Behind Excellence
Kurztext:

The path to exceptional clinical results and patient satisfaction begins with a solid philosophical foundation. This multicontributed book brings together representative cases from respected clinicians around the world to illustrate the philosophies that must guide sound treatment decisions. The book is organized by the broad topics of careful patient evaluation and diagnosis, interdisciplinary treatment planning, and minimally invasive and patient-centered treatment, with each chapter presenting the specific philosophy underlying one or more cases treated by the author. For each case, the author shares special challenges that were faced and a retrospective evaluation that highlights aspects of treatment that could be improved given new knowledge and insight. The clinical cases are presented with full-color images showing treatment from planning to result with accompanying text that details nuances of the case that bring it into full clinical focus. An elegant and thoughtful volume sure to fascinate and inspire the reader.

Contents

Section I. Careful Patient Evaluation and Diagnosis

- Chapter 01. Periodontal-Prosthodontic Treatment for Smile Enhancement
- Chapter 02. The Key Role of Occlusion in Obtaining a Reliable Functional and Esthetic Oral Rehabilitation
- Chapter 03. The Need for Orthodontic Treatment Due to Extraction Without Replacement
- Chapter 04. Immediate Loading of Multiple Single Implant Crowns in the Esthetic Zone
- Chapter 05. Use of Orthodontic Therapy to Improve the Esthetic and Periodontal Prognosis of Root Coverage Surgery

Section II. Interdisciplinary Treatment Planning

- Chapter 06. Comprehensive Implant and Restorative Treatment Using a Novel Guided Bone Regeneration Approach: Open Barrier Membrane Technique
- Chapter 07. Implant Failure and Subsequent Treatment: Report of a Complex Case
- Chapter 08. Interdisciplinary Approach for Optimizing Esthetics: Digital Technology and Excellence in Dental Esthetics
- Chapter 09. Interdisciplinary Management of Complex Implant Treatment

Section III. Minimally Invasive Approach

- Chapter 10. Multiple Microdontia: Orthodontic Treatment and Adhesive Composite Restorations for Esthetic and Functional Correction
- Chapter 11. Early Intervention for Severe Tooth Wear Using Conservative Adhesive Restorations
- Chapter 12. Direct Esthetic Restorations in Posterior Teeth: Criteria for Intervention and Clinical Protocol
- Chapter 13. Minimally Invasive Is Not Good Enough: Noninvasive, Simple Measures for a Very Complex Case
- Chapter 14. Improving the Esthetics of Posterior Restorations Using Indirect Composite Inlays
- Chapter 15. Preserving the Natural Dentition with Minimally Invasive Treatment and Maximum Results in a Complex Clinical Case
- Chapter 16. No-Prep Veneers: An Efficient, Predictable, and Minimally Invasive Approach to Restorative Treatment
- Chapter 17. Selecting the Optimal Restorative Modality for Diastemata Closure

Section IV. Patient-Centered Treatment

- Chapter 18. Treatment of a Class II Malocclusion with Molar Distalization and Fixed Appliances
