## Book information

**Editor:** Duarte jr., Sillas  
**Title:** Quintessence of Dental Technology 2021/2022  
**Series:** QDT Yearbook

#### Short text:

QDT 2021/2022 introduces new digital concepts and novel treatment strategies that are sure to inspire the dental technician and restorative clinician. New this year are links to informative videos to give readers a dynamic representation of the new techniques presented. Original articles in this year's volume describe the digital alveolar support technique, digital impression strategies for more predictable final restorations, a modified All-on-4 concept that retains teeth for natural dentofacial esthetics, and a new crown-lengthening approach for optimal soft tissue healing. "Biomaterials Update" explores gradient multilayered zirconia for expanding the indication of monolithic zirconia to the esthetic zone. These are but a sampling of the articles in this beautifully produced annual publication.

#### Contents

##### EDITORIAL

Looking Ahead and Moving Forward  
Sillas Duarte, Jr

##### MASTERPIECE

Healing Guided by Design: The Crown-Lengthening Procedure Revisited  
Eric Van Dooren | Florin Cofar | Ioana Popp | Ioan Cofar | Marcelo Giordani | Gustavo Giordani | Victor Clavijo

##### MASTERCLASS

RepliCAD—Digital Impression Strategies to Replicate the Soft Tissue Architecture and Teeth Position for Predictability in Final Restorations  
Victor Clavijo | Ricardo Recena | Paulo Fernando Mesquita de Carvalho | Willy Clavijo | Leonardo Bocabella

##### BIOMATERIALS UPDATE

Gradient Multilayered Zirconia  
Sillas Duarte, Jr | Victor Clavijo | Willy Clavijo/Jin-Ho Phark

##### MASTERPIECE

The Modified All-On-4 Concept: Keeping Teeth for Lip Support and to Maintain Patients' Identity  
Iñaki Gamborena | Yoshihiro Sasaki | Markus B. Blatz

##### Library-Based Design:

Workflow and Bottlenecks  
Florin Cofar | Ioan Barbur | Gustavo Giordani | Marcelo Giordani | Ioan Cofar | Eric Van Dooren | Ioana Popp | Paul Ficut

##### Minimally Invasive Esthetic Approach in Full-Mouth Rehabilitation:

Combining a Digital Workflow Using Intraoral and Facial Scanners  
Anabell Bologna | Rafael Laplana

##### MASTERCLASS

Push the Limits: Porcelain Laminate Veneer Preparation for Intraoral Scanning  
Masayuki Okawa | Akikazu Shinya | Shogo Yamamoto

##### The Digital Alveolar Support Technique:

Use of Natural Shape to Design the Soft Tissue  
Florin Cofar | Ioan Barbur | Gustavo Giordani | Marcelo Giordani | Ioan Cofar | Eric Van Dooren | Ioana Popp | Paul Ficut

##### Virtual Dentoalveolar Clone Concept in the Esthetic Zone:

Volumetric Assessment of Tissue Changes  
Ivan Contreras Molina | Diego Michel A. Castillo Saucedo | Kyle Stanley | Gil Contreras Molina

##### The 4\_Spheres Technique

Mariano Maurizi

##### Restoration of Endodontically Treated Teeth:

Classification of Remaining Dental Structure for Adhesive Restorative Procedures  
Erika Clavijo | Victor Clavijo

**The Double-Crown Technique for Masking Discoloration:**

Separating the Masking and Esthetic Parts of the Restoration

Aiham Farah | Anas Aloum

**Digital Workflows to Optimize Peri-implant Soft Tissue Management:**

The Inverse Scan Body Concept

Oscar Gonzalez-Martín | Manuel Martín-Luque | Andrés Acevedo | Gustavo Ávila-Ortiz

**Categories:**

Dental Technology, Prosthodontics
