## Buch-Information

**Hrsg.:** Chen, Stephen / Buser, Daniel / Wismeijer, Daniel  
**Titel:** Ridge Augmentation Procedures in Implant Patients  
**Untertitel:** A Staged Approach  
**Reihe:** ITI Treatment Guide Series  
**Kurztext:**

Volume 7 of the ITI Treatment Guide series provides clinicians with the latest evidence-based information on the techniques and materials utilized for ridge augmentation. An up-to-date analysis of the current evidence is based in part on the proceedings of the ITI Consensus Conferences in Stuttgart (2008) and Bern (2013) and on a review of the current literature. Twelve clinical cases demonstrate the planning and treatment principles required to successfully rehabilitate patients with varying degrees of ridge atrophy.

#### Contents

Chapter 01. Introduction  
Chapter 02. Consensus Statements on Ridge Augmentation and Review of the Literature  
Chapter 03. Preoperative Assessment and Planning  
Chapter 04. Methods for Ridge Augmentation  
Chapter 05. Implant Placement in Augmented Sites and Treatment Outcomes  
Chapter 06. Clinical Case Presentations  
Chapter 07. Management of Complications  
Chapter 08. Conclusions  
Chapter 09. References
