Buch-Information

Autoren: Paulo Kano
Titel: Challenging Nature
Untertitel: Wax-Up Techniques in Aesthetics and Functional Occlusion
Kurztext:

Fabrication of posterior prosthetic teeth is an art that requires technicians to reproduce the minute details of occlusal form using difficult methods of wax-up. Written for students as well as experienced clinicians, this unique atlas will change the way that technicians wax up teeth. It guides readers, step-by-step, through the author's revolutionary wax-up technique to re-create the complex morphology of premolar and molar teeth. The accompanying text provides straightforward explanations and illustrations of all techniques. Lavishly illustrated throughout, each chapter builds technical knowledge with sections on nomenclature, morphology, wax handling and application, functional wax-up sequences for maxillary and mandibular dentition, and adhesive cementation and culminates in a series of impressive clinical cases. A must-have resource for any dental technician wanting to review occlusal form and improve the functional morphology of posterior restorations.

Contents

Chapter 1. Nomenclature: Posterior Teeth
Chapter 2. Morphologic Characteristics: Posterior Teeth
Chapter 3. Wax-up: Training Exercises
Chapter 4. Wax-up: Maxillary Teeth with Antagonists
Chapter 5. Wax-up: Mandibular Teeth with Antagonists
Chapter 6. Wax-up: Maxillary and Mandibular Teeth
Chapter 7. Clinical Cases
Chapter 8. Cementation: Adhesive Cementation

Fachgebiet(e): Prothetik, Zahntechnik, Literatur fürs Studium
