## **Book information**

Editor: Garg, Arun K.

Title: Zygoma Implants

Subtitle: Step by Step

#### **Short text:**

With success rates ranging from 95% to over 98%, zygoma implants are the standard of care in the treatment of patients with severe maxillary bone atrophy who cannot be rehabilitated with surgical bone augmentation and/or the placement of conventional or tilted implants. Because patients who qualify as candidates for zygoma implant therapy usually get only one chance to regain their masticatory function, the stakes for this treatment are very high, and that is why Dr Arun K. Garg undertook this project. Written by distinguished authors with decades of clinical knowledge, the book equips the experienced implant surgeon with comprehensive knowledge of every facet of the surgical and prosthetic treatment protocols for zygoma implant therapy, from patient evaluation and selection to step-by-step procedures and the management of complications, building the reader's knowledge from start to finish. Learn the ins and outs of zygoma implant therapy so you too can deliver this life-changing therapy to your patients.

### **Contents**

Chapter 01. Zygoma Implants: Rationale, Indications, and Overview

Chapter 02. The ZAGA Concept: A Multifaceted Approach to Zygoma Implant

Rehabilitation

Chapter 03. Anatomy and Pathophysiology of Maxillary Bone Atrophy

Chapter 04. Zygoma Implants: Step-by-step Surgical Protocol

Chapter 05. Oral Rehabilitation with Pterygoid Implants

Chapter 06. Two Zygoma Implants in Combination with Conventional or Tilted Implants

Chapter 07. Quadruple Zygoma Implants

Chapter 08. Multiple Zygoma Implants

Chapter 09. Zygoma Minimally Invasive Technique with Piezoelectric Instrumentation

Chapter 10. Step-by-Step Prosthetic Protocol for Zygoma Implants

Chapter 11. Prosthetic Restoration of Zygoma Implants

Chapter 12. Zygoma Implants in the Patient with Cancer or Maxillofacial Trauma

Categories: Implantology, Oral/Maxillofacial Surgery
