## Book information

**Authors:** Galip Gürel  
**Title:** The Science and Art of Porcelain Laminate Veneers

**Short text:**

*The Science and Art of Porcelain Laminate Veneers* details the expanding field of porcelain laminate veneers in esthetic dentistry. It guides the esthetic dentist in understanding the needs of the patient and formulating a treatment plan that includes not only esthetic considerations, such as color and smile design, but also occlusal, periodontal, and functional requirements. In addition, it discusses the use of porcelain laminate veneers in diastema closure, the treatment of tetracycline discoloration, and in conjunction with orthodontic therapy. New techniques to ensure minimally invasive tooth preparation and maximum space creation for the dental technician are explored, and impression materials for porcelain laminate veneers are compared. The detailed guides to alternative porcelain materials and their step-by-step applications make this book invaluable for general practitioners, dental technicians, and the entire esthetic team.

**Contents**

Chapter 01. Esthetic Dentistry  
Chapter 02. Smile Design  
Chapter 03. Adhesion  
Chapter 04. Occlusion  
Chapter 05. Color  
Chapter 06. Periodontal Considerations in Esthetic Treatment Planning  
Chapter 07. Atlas of PLVs  
Chapter 08. Failures  
Chapter 09. PLVs for Diastema Closure  
Chapter 10. PLVs for Tetracycline Discoloration  
Chapter 11. Adjunctive Orthodontics as Related to Periodontics and Cosmetic Dentistry  
Chapter 12. Periodontal Treatment and PLVs  
Chapter 13. Special Considerations  
Chapter 14. Patient Education and the Management of Cosmetic Dentistry: A Team Approach
