Book information

Authors: Dominik Groß

Title: Curriculum Ethik und Geschichte der Zahnheilkunde unter Einbezug der Medizin

Series: Curriculum

Short text:

This book is a compact guide to the new academic discipline of "Ethics and History of Medicine and Dentistry." It is based on the "National Competence-Based Catalogue of Learning Objectives in Dentistry" (NKLZ), which was introduced in 2021.

Part I of the manual is dedicated to history, and Part II to ethics, taking into account clinical-ethical case reports. In both parts, the main focus is on dentistry and its specialist representatives. In addition, many references are made to medicine and the medical profession, as is required by the new dental regulations for this subject.
