## Informazioni sul prodotto

**Autori:** Søren Jepsen / Mariano Sanz / Bernd Stadlinger / Hendrik Terheyden

**Titolo:** Cell-to-Cell Communication: Oral Health and General Health

**Sottotitolo:** The Links Between Periodontitis, Atherosclerosis, and Diabetes

**Collana:** Cell-to-Cell Communication

#### Testo breve:

Can periodontitis or other inflammatory processes of the oral cavity contribute to systemic conditions such as atherosclerosis or diabetes, or negatively influence their course? This 3D animation *Oral Health and General Health* addresses these issues by visualizing the highly complex intercellular interactions and signaling pathways. Periodontal pathogens are invasive and can spread throughout the body via the bloodstream. Locally produced pro-inflammatory mediators can also shed into the circulation. This new film features an interdisciplinary topic, and in this context, special attention is given to diseases such as atherosclerosis and type 2 diabetes. This sophisticated HD video animation makes the relevant information and latest insights accessible to a wider audience.

#### Contents

- Dissemination of bacteria in periodontitis
- Impact of periodontitis on the cardiovascular system: Atherosclerosis
- Effect of periodontitis on glucose metabolism: Type 2 diabetes
- Dental treatment

#### Advisory Board

Prof. Dr. Iain Chapple • Prof. Dr. Robert Genco • Prof. Dr. Evanthia Lalla • Prof. Dr. Shinya Murakami

*DVD 1: Expert Version* (Length: 17 minutes)

*DVD 2: Public Version* (Length: 14 minutes)

**Categorie:** Medicina generale, Interdisciplinare, Parodontologia, Odontoiatria in generale
