Buch-Information

Autoren: Douglas A. Terry / Willi Geller

Titel: Esthetic and Restorative Dentistry

Untertitel: Material Selection and Technique

Kurztext:

Restorative dentistry has seen dramatic advances in recent years, especially with the use of digital technologies, and this book provides the most up-to-date information on enhanced developments, materials, and techniques that have emerged since the publication of the second edition, offering the reader a completely updated, revised, and newly illustrated overview of modern esthetic and restorative dentistry complete with tutorial videos. New topics include web-based communication with the laboratory, indirect composite chairside CAD/CAM restorations, a comparison of digital and conventional techniques, the resin composite injection technique, as well as updated information on composites and ceramic systems, including esthetic zirconia. New cases illustrate the maintenance of esthetic restorative materials, esthetic contouring, immediate dentin sealing, and novel surgical techniques such as lip repositioning, connective tissue grafting, and ridge preservation with collagen membranes. Dr Terry expanded his team of editorial reviewers to include the best minds in research and clinical practice, and the final product is a testament to his dedication to patient satisfaction and treatment success. The techniques demonstrated in this book will no doubt elevate your practice to the next level.

Contents

Chapter 01. Diagnostic and Communication Concepts

Chapter 02. Principles of Tooth Preparation

Chapter 03. Composite Resins Chapter 04. Ceramic Materials Chapter 05. The Impression Process Chapter 06. Mechanisms of Adhesion

Chapter 07. Contemporary Adhesive Cements

Chapter 08. Provisionalization Chapter 09. Esthetic Post Systems

Chapter 10. Finishing and Polishing Esthetic Restorative Materials

Chapter 11. Dental Photography Chapter 12. Periodontal Plastic Surgery Chapter 13. Interdisciplinary Implantology

Chapter 14. Biomodification of Tooth Discoloration

Fachgebiet(e): Ästhetische Zahnheilkunde, Restaurative Zahnheilkunde
