

Book information

Authors: Uwe Ganschow
Title: EKG-Kurs
Subtitle: The Structured Learning Program with 55 Annotated Original Diagnostic Findings

Short text:

This book is the ultimate learning package on ECG. It contains everything you need to know about creating, evaluating, and adjudicating ECGs. Highlights of the book include over 400 easy-to-remember illustrations and tables, numerous mnemonic devices, practice questions with solutions at the end of each chapter, 55 detailed and professionally assessed original ECGs as training material for your own skills, and 26 practice ECGs with solutions. Special chapters on coronary heart disease, global diseases of the heart, bradycardic and supraventricular arrhythmias, ventricular extrasystoles and tachycardias, emergencies, and pacemaker ECGs round off the content.
