## Buch-Information

**Autoren:** Mithridade Davarpanah / Serge Szmukler-Moncler

**Titel:** Immediate Loading of Dental Implants

**Untertitel:** Theory and Clinical Practice

**Kurztext:**

This clinical manual details the surgical and prosthetic protocols for clinicians who wish to utilize immediate implant loading in qualified patients. It details the fundamental principles, from patient selection to surgical procedures to the final adjustment of the definitive restoration. In addition, the chapters describe solutions to various challenges, such as when to use screw-retained or cement-retained provisional prostheses, how to prepare the prosthesis chairside, and when to have the prosthesis prepared in the laboratory. Including ample clinical photographs and decision-making flow charts, this comprehensive volume offers readers concrete guidelines for a proven technique that simplifies implant procedures and provides clear benefits to patients.

**Contents**

Chapter 01. Benefits and Principles of Immediate Loading

Chapter 02. Concepts of Immediate Loading

Chapter 03. Differences Between Traditional Treatment and Immediate Loading Protocols

Chapter 04. Strategies for Optimizing Osseointegration

Chapter 05. Three-Dimensional Placement of Implants

Chapter 06. Management of Esthetics

Chapter 07. Selection of Screw-Retained or Cemented Provisional Prostheses

Chapter 08. Failure of Immediately Loaded Implants

Chapter 09. Key Concepts of Treatment Planning

Chapter 10. Treatment of the Edentulous Mandible

Chapter 11. Treatment of the Edentulous Anterior Maxilla

Chapter 12. Treatment of the Edentulous Maxilla

Chapter 13. Treatment of the Edentulous Anterior Mandible

Chapter 14. Treatment of the Edentulous Posterior Mandible and Maxilla

Chapter 15. NanoTite: A New Type of Bioactive Surface

**Fachgebiet(e):** Implantologie, Oralchirurgie, Parodontologie, Prothetik
