Authors: Michael P. Waliszewski

Title: Brudvik's Advanced Removable Partial Dentures

Short text:

This brand-new edition of Dr Brudvik's classic text features hundreds of new photographs and drawings to explain the intricacies of complex RPDs. The function of each element of an RPD is described in isolation and by class, and the clinical and laboratory steps of RPD design and creation are reviewed, followed by discussions of various types of prostheses and when/how to use them. This technical manual is aimed at experienced practitioners but still presents the information in a neat, organized, and easy-to-follow manner.

Contents

- Chapter 01. Treatment Planning
- Chapter 02. Elements of Design
- Chapter 03. Classification-Based Design
- Chapter 04. Mouth Preparation
- Chapter 05. Recording the Intraoral Condition
- Chapter 06. Laboratory Construction of the Framework
- Chapter 07. Establishing the Tooth-Frame Relationship
- Chapter 08. Completion of the Partial Denture
- Chapter 09. Extending Longevity
- Chapter 10. Interim Resin-Based Partial Dentures
- Chapter 11. Precision Attachments
- Chapter 12. Special Prostheses
- Chapter 13. Implants with Partial Dentures
- Chapter 14. Frameworks for Implant Overdentures
- Chapter 15. Lessons from RPD Evolution

With contributions from Professor Hai Zhang, DMD, PhD
